## WETSUITS

Two piece wetsuits made in single lined neoprene with an elastic camouflaged lining. The neoprene rubber is certified for the absence of any chemical materials which can damage the environment or human health such as phthalates and latex. It also features great resistance to compression and an excellent elastic return.

The pants and jacket have a preformed design and the small number of panels used to assemble the wetsuit allow for less sewing hence greatly increasing the overall elasticity of the wetsuit, especially in the armpit area.

The jacket features a reinforcement on the chest for greater protection during charge and reinforcements on the elbows. The pants have similar reinforcements on the knees.

# CARBON ROCK

The exclusive design of this wetsuit features a background in carbon fiber color with spots of 3D camouflaged sea bottom. This solution breaks the image of the diver increasing the camouflaged effect. CARBON ROCK features the new "Easy Lock" button system, designed by C4. These locks have been specifically designed to lock the jacket in position in the crotch area minimizing obstruction and allowing the diver to unlock the jacket with just one hand. CARBON ROCK is available in three thicknesses: 3.0mm, 5.0mm and 6.5mm. Jacket and Pants are sold separately in five sizes.

## EXTREME CAMO

The 3D photographic camouflage is an exclusive design of C4 and it reproduces the typical bottom of the sea with inserts in green olive color which break the image.

EXTREME CAMO comes in three thicknesses: 3.0mm, 5.0mm and 6.5mm. Pants and jackets are sold separately in five sizes.

# ZERO GLOVES

- Watertight neoprene gloves thanks to the innovative "Acqualock system".

- Available in 2mm, 3.5mm and 5mm to optimise different thermal-protective needs.

- Ergonomic gloves with palm reinforced in anti-abrasion material and featuring additional protection on the fingertips of the first 3 fingers of the left glove, which are more subject to wear during spearfishing.

- High thermal power

- Excellent fit.

# ZERO PLUS

## NEOPRENE SOCKS

The anatomy and fashion of the ZERO PLUS neoprene socks are the same of the ZERO model. Compared to the ZERO, however the materials used are different.

The ZERO PLUS is in fact mainly made of single-lined neoprene, smooth externally and with a super elastic lining inside, without the presence of seams. The use of these materials makes these neoprene socks extremely elastic and with a high thermal capacity.

The lining used for the front part of the fingers, the sole and the heel is reinforced and anti-abrasion.

The anatomy is differentiated between the right and left foot.

Available only in 5mm thickness and six sizes, from size XS to XL.

	EU	US
<b>XS</b>	36/37	4.5 / 5.5
<b>S</b>	38/39	6 / 7
<b>S/M</b>	40/41	7.5 / 8.5
<b>M</b>	42/43	9.5 / 10
<b>L</b>	44/45	11 / 11.5
<b>XL</b>	46/47	12.5 / 13

# NEOPRENE SOCKS ZERO

The design of these neoprene socks has been developed down to the smallest detail. We have used **different materials for each panel** making **these neoprene socks** the most comfortable and resistant on the market. The panel of the instep is made with elastic lining, the panel on the fingers is warm and anti-cut, the one on the sole and on the heel is highly resistant to abrasion without any undesirable sewings. Zero features a left and a right.
